

What do they THINK AND FEEL?

what really counts
major preoccupations
worries & aspirations

Monitoring
and data
collection

Sensors can
sense the
activities

It sucks less
amount of
power
consumption
and storage

It can be
accessed
very easily

The baby
movement
analyse and
time to feed can
be diagnosed

What do they SEE?

environment
friends
what the market offers

Proximity sensor
used to see
movements
around the
baby.

Temperature
sensor sense
the heat of
the body

A simple
gadget plays a
special role for
the child
safety

A child safety is very
much decreased now
a days. This device is
used to act as a great
protector of children
from the hazards and
obstacles

In fact, crimes on
children keep
increasing despite
actions have been
taken by the
government.

Child safety
system is a user
friendly device
where parents
can access it
easily.

IOT is a
booming up
technology all
over the world
now a days

So, it is very clear
evidence that
children are very
interested in using
smartphones
worldwide.

child safety is
important to
protect the
children by
society

Gadget
embedded with
IOT can store
the routine done
by children

An IoT based
wearable smart
band for children
is available in
market.

we automatically
monitor the child
in real time using
internet of things.

to help the
parents to
locate and
monitor their
children

child safety
device do not
affect the
children health
if they wear it.

What do they HEAR?

what friends say
what boss say
what influencers say

What do they SAY AND DO?

attitude in public
appearance
behavior towards others

It automatically
send the
informatrion to
the parents

child safety is a
major concern in
any society due
to the
vulnerability of a
child.

It help the
parents not
to always
near with
children.

Mobile access of
gadget is very
understandable

PAIN

fears
frustrations
obstacles

there is
posibility of
mild radiation
explore from
the gadget

Allows children
more freedom
while being
watched

GAIN

"wants" / needs
measures of success
obstacles

Easy
Availability&
Affordability

Tracking
Made Easy

Helps monitor
children with
behavioural
problems

Gives
peace of
mind to
paren

keep track
of children
in case of
abduction

High cost
the object
is.

Hard to
maintain

For
uneducated
people it is a
bit difficult to
operate

The system
offers little
control despite
any security
measures.
